

Main Benefits Of Dissolved Active Hydrogen Water :

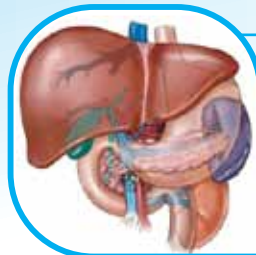

1. HW : Anti-Cancer

- Cancer prevention : reduces the activity of ODC and ROS to prevent DNA damage
- Controls aggressiveness and proliferation of cancer cells : inhibition of mRNA VEGF, STAT3 phosphorylation, PCNA
- Enhances the induction of apoptosis of tumor cells to causes telomere shortening
- Controls the growth of cancer cells : inhibition of tumor angiogenesis, vascular endothelial growth factor
- Controls the side effects of anticancer drugs

2. Kidney Problem

- Prevents Tubular inflammation and injury
- Inhibits glucose and AB dicarbonyl induced oxidation damage
- Reduces creatinine and blood urea nitrogen to prevent tubular necrosis

3. Fatty Liver, Cirrhosis, Liver Cancer

- Lowers liver ALT, cholesterol and triglycerides
- Prevents necrosis, hepatocyte swelling and fibrosis
- Reduces mRNA, TNF- α and IL-6, reduces inflammation
- Lowers 8-OHdG and lowers oxidative damage
- Prevents liver cancer

4. Pregnancy And Development Of Foetus

- Prevents mental retardation
- Prevents nerve and brain damage
- Promotes foetal growth

5. Obesity

- Stimulates energy metabolism, suppresses weight gain
- Lowers blood glucose and excessive insulin
- Lowers triglycerides and LDL

6. Atherosclerosis, Heart Attack, Stroke

- Lowers LDL and increases HDL
- Reduces the accumulation of fat in the blood vessels
- Hiroshima University 2008 clinical trials, drinking 2 liters H4O a day:
 - Significantly lowers blood glucose, GOT, and γ -GTP level.
 - Lowers blood pressure,
 - Lowers Total cholesterol, LDL cholesterol, and triglyceride levels and atherogenic index
 - Lowers Uric Acid level

7. Diabetes

- Increases FGF21 mRNA and regulates blood sugar and triglyceride levels
- Prevents oxidative damage of Islet B cells.
- Enhances uptake of sugar by inhibiting protein tyrosine phosphatase (PTP) activity and stimulating insulin receptors.
- Promotes glucose transporters to the cell membrane.
- Prevents type 2 diabetes complication.

8. Rheumatoid Arthritis

- Inhibition of NF-KB, TNF-A to prevent the formation of intimal
- Reduces inflammation

9. Athletes

- Prevents mitochondria damage, Increases ATP production
- Lowers blood lactate levels
- Hydrates
- Improves the speed of recovery of muscle fatigue

10. Detoxification: Constipation, Dehydration, Skin Problem

- Weak alkaline, Prevents acidosis
- Small water cluster, Nourishes cells
- Anti-inflammation, Regulation of the immune system function

The Foundation Of Life And Health : Water

Water is the basic element and basic physiological need of life. The human body contains 70% of water. Without water, there will be no life. Water is needed for digestion, transportation of nutrients and toxins, regulation of body temperature and body pH, muscle and joint movement, etc. On average, a person consumes about 2 to 4 liters of water daily. Either by weight or volume, a person consumes far more water than food. Thus the quality of water consumed has a great impact and is the key factor that affects the health, beauty and longevity of a person.

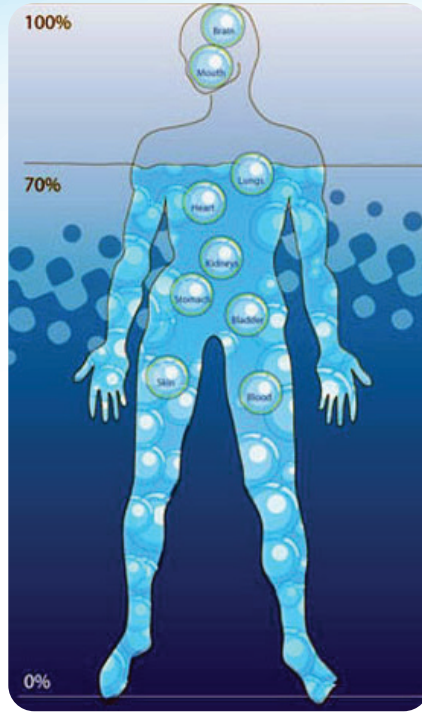

With the progress and development of science, and through research and clinical studies, the expectation of drinking water has shifted from basic physiological needs to therapeutic functions.

Expectation Towards Drinking Water:

- Portability : River water, well water, pond water, rain water
- Cleanliness : Tap water, boiled water, filtered water, RO water, distilled water
- Healthcare : Mineral water, Energized water, Hexagon water, ionized alkaline water
- Therapeutic : Dissolved Active Hydrogen water

Miracle Waters In The World:

There are a few places on earth that produce water with magical therapeutic effects. People with various types of health problems were simply cured by consuming the water. Pains and aches disappeared, cancer cell diminished, high blood pressure and glucose lowered, the blind begin to see, the deaf begin to hear, the cripple begin to walk, and organs function were restored...These waters are recognized as "MIRACLE WATER" or "HOLY WATER" for their magical efficacy.

The miraculous efficacy has attracted scientists to conduct studies on these waters. The research unveiled the truth and they discovered that the secret behind these waters lies in the content of Dissolved Active Hydrogen (DAH), weak alkaline and small water clusters.

H₂O DAH system is purified water system, healthy water system and therapeutic water system, all in one. It produces dissolved active hydrogen, weak alkaline water with small "water cluster".

Main Functions of H₂O D.A.H Water

Father Of Therapy D.A.H

Dr. Hidemitsu Hayashi

"Hydrogen is crucial for health and beauty, you will experience the magical efficacy of DAH in 6 months"

A. Selective Free Radical Scavenging

Free radical damage cell membrane, nucleus and mitochondria. It is the main cause of aging and disease.

1. Reduces glucose-induced reactive oxygen species damage
2. NOX4 inhibition
3. Enhances SOD1, SOD3, MDA and catalase

B. Anti-Inflammation

Inflammation causes oxidation. It is the main cause of diseases.

- Inhibition of IL-6, MCP-1, NF-kB, ED1 positive macrophages

C. Reduces "Ischemia - Reperfusion" Injury

- Recovery after ischemic injury in circulation which lead to inflammation and oxidation.

D. Anti-Cancer

- Prevents DNA damage by lowering ODC and reducing ROS activity.
- Controls activity and proliferation of cancer cells by suppressing VEGF and inhibiting mRNA, STAT3 phosphorylation, PCNA - Controls growth of cancer cells by inhibiting angiogenesis and reduces vascular endothelial growth factor secretion
- Induces tumor cell apoptosis by shortening telomere. - Controls the side effects of anti-cancer drugs

E. Prevents Radiation Damage

- Hydrogen therapy reduces the risk related to radiation-induced oxidative stress.

F. Enhances Energy Level

- Prevents mitochondrial damage and swelling
- Reduces MDA, OONO, NAPDH oxidase and xanthine oxidase
- Increases catalase, increases ATP production.
